

ACTIVATE TALENT — SCREENING CALL

Creative Strategist (Remote, HK) · Danny Mejia, recruiting partner · 30 min · Google Meet

Thu 30 / Fri 31 Jul

揀 8:00am EDT

= 香港 8:00pm

目標 — 30 分鐘做乜

Danny 係 **gatekeeper**，唔係客戶。佢唯一決定：值唔值得將你 present 俾客戶。

- 易 present（一句講清你係邊個）
- 記得住你（一個數字）
- 唔踩雷（唔好令佢覺得你唔穩定）

你實際只有 ~10 分鐘 講嘢 → 揀重點，唔好樣樣講。

開場 60 秒 — 順序唔可以亂

1. 商業信譽

"Eight years in creative and performance marketing for consumer brands in Hong Kong and Southeast Asia. I ran creative direction and performance on about HK\$500,000 a month of paid spend at Hong Kong's number one baby e-commerce platform, at 3 to 7 times ROAS."

2. 差異化證據

"For two years I've run my own AI-education brand, @aieasyjob, solo across YouTube, Instagram and Facebook. One Facebook Reel hit 76,000 organic views off a 77-follower page — roughly 990 times follower count, zero paid support."

3. 護城河

"I build AI production pipelines. I use Claude daily as infrastructure, not as a toy — custom skills and multi-step workflows for scripting, briefs, competitor teardowns, automated carousel production. That's the only reason one person can sustain weekly multi-platform output."

佢中途打斷都有事 — 最重要兩樣已經講咗。

數字 — 唔好記錯

累計投放	HK\$3M+ @ 3–10x ROAS
峰值月投放	HK\$500K+ @ 3–7x ROAS
增量 GMV	HK\$300K / 5 個月
A/B 測試	+200% CVR, 峰值 10x+ ROAS
救亡案例	ROAS 0.3x → 3x / 90 日
FB 王牌	76,000 views (~990x 粉絲、~210x 中位數)
FB 第二條	11,000 views — 證明係結構唔係好運
YouTube	84,000+ views / 57 條片
KOL / Email	200+ KOL ; Klaviyo 30,000 訂閱
AI 起步	2022 年 (早業界 ~2 年)

紅旗 — 聽住

- 一路唔肯講行業／公司類型 → **mandate 未 confirm**
- 講 **flexible hours** 但迴避時區 → 大機會要美東 overlap
- 只賣 remote 好處、迴避內容 → 用彈性補償薪酬
- 問 **lowest you'd accept** → 唔好答，重申範圍

Call 前 checklist

- 測 Google Meet 鏡頭 + 麥 — 佢明確評 **communication style**
- 背景乾淨、光源在前
- 開住 **76K 條 FB Reel** — 想睇即 share screen，勝過講數字
- 開住 D 版 CV（熟自己寫過乜）
- 紙筆記佢答嘅內容 — client interview 要對得上
- 香港晚 8:00 call → 唔好食得太飽

佢問 → 你答

「**Why are you looking?**」 — 最大風險位

"Freelance and my own channel let me test creative methods across 20-plus brands without anyone's approval. But the ceiling is real — I'm optimising short campaigns, or my own channel with no budget. I want to put the method behind one brand with real scale and compound it over years, not quarters."

唔好講：想穩定啲／freelance 難做／想有固定收入

「**How do you use AI?**」 佢一定問 — 講系統，唔好講工具名單

- **Claude** = reasoning : script、brief、teardown、custom skills（chained，唔係逐次 re-prompt）
 - **Midjourney / Ideogram** = brief-to-visual
 - **Governance** = template + QC checklist + naming、version control
- "The point isn't speed. It's 10-plus variants per cycle while still holding single-variable discipline, so results stay attributable. That drove a 200% conversion rate lift. I started this in 2022 — about two years before it became standard."*

「**Salary expectations?**」 兩段式 — 唔好一次答

第一次問 → 推返俾佢

"I'd rather understand the shape first — employment or contractor, and what the hours look like — those change the number. What has the client budgeted?"

佢再追（大機會）→ 才給範圍

"For a full-time Hong Kong-based creative strategy role at my level, HK\$40,000 to 55,000 a month. If it's contractor without benefits, that needs to be higher to be equivalent."

絕對唔好講 **USD \$3,500 / HK\$27,000**

「**Will you keep running @aieasyjob?**」

"Yes — but it's where I test methods before using them on someone's budget. Everything I'd bring here gets prototyped there first. Happy to talk through boundaries if there's any concern."

Notice period → freelance 所以快，主動講，係優勢。

你問返 — 按次序

1. 時區（最高優先 — 佢答得到）

"Is there a required overlap with US hours, or is this work-anywhere within Hong Kong hours?"

佢用紐約時間，開放時段 = 香港晚 8:00 – 凌晨 3:30。若要美東 overlap 即夜班。

2. 客戶想解決乜問題

"What are they looking to accomplish with this hire — scaling output, improving creative performance, or building a function that doesn't exist yet?"

3. 為何我嘅背景突出

"You said my background stood out — what specifically? It helps me know what to emphasise with the client."

唔好再追 **budget / reporting structure / team composition / exact hours / comp range** — 佢已明確話留到 **client interview** 階段。
