

ANSON CHAN

Senior Growth Manager

+852 9298 1110 | ansonchanai@outlook.com | digitalanson.com | youtube.com/@aieasyjob | IG @aieasyjob

Expected salary: HK\$55,000 per month

PROFESSIONAL SUMMARY

Growth and performance marketing leader with 8 years scaling consumer acquisition for high-growth digital and e-commerce businesses in Hong Kong and Southeast Asia. Hands-on accountability for **multi-million HKD annual media budgets** — HK\$500K+ per month at Hong Kong's #1 baby e-commerce platform at consistent 3–7x ROAS, and HK\$3M+ cumulative across 20+ brands at 3–10x ROAS.

Owns the full growth loop rather than the top of it: paid acquisition and channel strategy, funnel and conversion rate optimisation, lifecycle retention and repeat-purchase revenue (Klaviyo programme, 30,000 subscribers), and structured experimentation with single-variable discipline so results stay attributable. Delivered **+200% conversion rate** through systematic AI-assisted creative testing and turned a failing account from **0.3x to 3x ROAS in 90 days** on a majority cold-audience budget split.

Deep, daily practitioner of AI in marketing operations — not evaluation-stage. Introduced generative AI into commercial production in **2022**, roughly two years ahead of industry adoption, cutting testing cycles 50%; now builds custom Claude skills and multi-step automation pipelines covering scripting, briefs, competitor research, creative production and cross-platform repurposing.

Led a team of three (two designers, one marketing executive) plus agency partners. Trilingual: Cantonese (native), English (fluent), Mandarin (fluent). Hong Kong-based, available for hybrid.

CORE COMPETENCIES

Performance Marketing & Channel Strategy

Paid acquisition strategy & execution · Multi-channel budget allocation & pacing · ROAS / CPA / cost-efficiency accountability · Meta Ads (cold prospecting + retargeting) · Google Ads (Search, Shopping, Performance Max) · TikTok · New-channel and ad-format testing · Landing page testing

Digital Funnel & Conversion Optimisation

Full-funnel architecture (Awareness / Consideration / Conversion) · Drop-off diagnosis & user-flow streamlining · Conversion rate optimisation · Landing page messaging & structure · A/B and multivariate experimentation · Single-variable testing discipline

Lifecycle Retention & Personalisation

Klaviyo lifecycle programmes (30,000 subscribers) · Welcome, abandoned-cart, post-purchase & win-back automation · Audience segmentation · Repeat-purchase revenue · Acquisition-to-retention handover · CRM collaboration · Personalised creative by journey stage

Marketing Automation, AI & Operational Efficiency

Custom Claude skills & multi-step workflow automation · AI-accelerated creative and copy production · Automated asset pipelines · Reusable templates with conditional logic & QC checklists · Asset naming, tagging & version control · Agency and vendor management

Data & Analytics

GA4 dashboards & reporting · Meta Ads Manager · Shopify DTC analytics · UTM taxonomy & pixel governance · Monthly performance reporting to senior stakeholders · Data-driven decision frameworks

PERFORMANCE HIGHLIGHTS

Metric	Result
Peak monthly media budget owned	HK\$500K+ at consistent 3–7x ROAS
Cumulative media budget managed	HK\$3M+ at 3–10x ROAS
Revenue attribution	HK\$300K incremental GMV in 5 months
Conversion rate uplift	+200% via systematic A/B testing; peak 10x+ ROAS

Metric	Result
Account turnaround	ROAS 0.3x → 3x in 90 days, 70% cold-audience budget
Lifecycle programme	Klaviyo, 30,000 subscribers, 2x weekly + 4 automated flows
Organic traffic growth	+30% via integrated SEO and paid social
Team led	3 direct reports + agency partners
Testing velocity	10+ creative variants per cycle; cycle time cut ~50%
AI in production since	2022 (~2 years ahead of industry)

SIGNATURE CASE STUDIES

1. Paid Acquisition Turnaround — ROAS 0.3x to 3x in 90 Days

Context. A fashion and lifestyle retail client was running Meta Ads at 0.3x ROAS. Budget was concentrated in warm retargeting and the creative pool had gone stale — the account was harvesting existing demand at a loss rather than acquiring customers.

Action. Diagnosed the failure as creative and funnel, not audience, and isolated it with single-variable tests. Rebuilt the full-funnel strategy and reallocated **70% of budget to cold-audience prospecting** for net-new acquisition, rebuilding the creative pool around journey-stage messaging instead of one offer angle. Rebuilt landing page messaging to match ad promise and close the conversion gap.

Result. ROAS scaled from **0.3x to 3x within 90 days** on a majority-prospecting split — materially harder than a retargeting-led lift, because the gain came from net-new customers rather than existing demand.

2. Multi-Million HKD Budget with Revenue Accountability — HK\$300K Incremental GMV in 5 Months

Context. Baby Central, Hong Kong's #1 baby e-commerce platform, scaling across HK and SEA. Trust-sensitive category: credibility gates conversion and engagement metrics actively mislead.

Action. Owned channel performance and budget allocation for **HK\$500K+/month** across Meta and Google (Search, Shopping, Performance Max, retargeting) — roughly HK\$6M annually. Built GA4 and Meta Ads Manager dashboards specifically to tie spend decisions to revenue rather than engagement proxies, with UTM and pixel governance maintained as testing infrastructure. Scaled a 200+ KOL programme as a measurable acquisition channel.

Result. **HK\$300K incremental GMV within 5 months**, consistent **3–7x ROAS** on HK\$500K+/month spend, and 30% organic traffic growth through integrated SEO and paid social.

3. Lifecycle Retention Programme — 30,000 Subscribers

Context. Acquisition was performing, but repeat purchase was under-exploited — new customers were not being converted into returning ones, leaving the economics dependent on continuous paid spend.

Action. Owned the Klaviyo content-to-conversion system end to end for **30,000 subscribers**: 2x weekly campaigns plus four automated flows — welcome, abandoned cart, post-purchase and win-back — with audience segmentation and A/B testing on subject lines and offers. Coordinated the handover so acquisition creative and retention messaging told one continuous story rather than two disconnected ones.

Result. A working repeat-purchase engine driving measurable returning revenue, reducing reliance on paid acquisition alone and lifting the value of every acquired customer.

4. Testing Throughput via AI Pipeline — +200% Conversion Rate

Context. Creative testing was throughput-limited to a handful of variants per cycle, producing slow, low-confidence learning and long periods running unvalidated creative.

Action. Built an AI-assisted variant production pipeline (Claude and ChatGPT for copy and angles; Midjourney and Ideogram for visuals) raising output to **10+ variants per cycle**, while holding single-variable testing discipline so increased throughput did not destroy attribution. Documented winners into a playbook with the structural reason they won.

Result. **+200% conversion rate** across Meta Ads and Instagram, peak campaigns at **10x+ ROAS**, and testing cycle time cut **~50%** — compounding learning velocity across the account.

5. AI Operational Efficiency Proven on Live Distribution

Context. Running a multi-platform content operation solo, with no team and no media budget — the hardest possible test of whether AI-driven workflows actually produce results or just output.

Action. Designed an end-to-end pipeline: custom Claude skills for scripting, briefs and competitor teardowns; Midjourney and Ideogram for visual production; an automated carousel generation system with image-matching logic and enforced design standards; and reusable templates with QC checklists governing the chain.

Result. Sustained weekly output across YouTube, Instagram and Facebook as one person — including a **76,000-view organic Facebook Reel from a 77-follower page (~990x follower count)** with zero paid support, and 84,000+ YouTube views across 57 videos. Scripting time cut ~60%.

PROFESSIONAL EXPERIENCE

B2C E-Commerce & Digital Marketing Manager

Baby Central Limited (HK's #1 baby e-commerce platform) / Bloom and Grow Limited

Jan 2022 – Feb 2024 | Hong Kong & SEA

- Owned channel performance and budget allocation for **HK\$500K+/month** (~HK\$6M annually) across Meta and Google — Search, Shopping, Performance Max and retargeting — at consistent **3–7x ROAS** across HK and SEA during a high-growth scaling phase.
- Drove **HK\$300K incremental GMV within 5 months** via data-driven Shopify campaign targeting, with spend decisions tied directly to revenue.
- **Led a team of three — two designers and one marketing executive** — covering social media, EDM, website design and revamp, and offline event support; briefed and managed agency partners alongside.
- Owned the Klaviyo lifecycle system for **30,000 subscribers**: 2x weekly campaigns plus welcome, abandoned cart, post-purchase and win-back automation, with segmentation and A/B testing.
- Delivered a full **website design and revamp** with the in-house design team — improving user flow and conversion path alongside the paid programme.
- Built and scaled a **200+ KOL and influencer programme** across HK and SEA as a measurable acquisition and brand-lift channel in a trust-sensitive category.
- Pioneered generative AI (ChatGPT, Ideogram) in production workflows in **2022** — cutting A/B testing cycles 50% and production cost materially, ~2 years before industry-wide adoption.
- Built GA4 and Meta Ads Manager dashboards for monthly senior-stakeholder reporting; maintained UTM and pixel governance.
- Grew organic site traffic **30%** through integrated SEO and paid social; collaborated cross-functionally with design, development, operations and merchandising.

Freelance Digital Marketing Consultant

Mar 2024 – Present | Hong Kong & Regional Clients

- Rebuilt full-funnel Meta Ads strategy for a fashion and lifestyle retailer — **ROAS 0.3x to 3x within 90 days**, 70% of budget on cold-audience prospecting.
- Delivered **+200% conversion rate** through AI-assisted creative A/B testing at 10+ variants per cycle under single-variable discipline; peak campaigns at 10x+ ROAS.
- Managed monthly Shopify DTC budgets of **HK\$30K–200K per client** at consistent 3–7x ROAS across Meta Ads and Google Shopping.
- Built three-stage funnel architecture with AI-generated customer personas for a multi-regional hair care brand — testing cycles cut 50%.
- Built Klaviyo lifecycle flows driving measurable repeat-purchase revenue.

Founder & Growth Operator — @aieasyjob (YouTube · Instagram · Facebook)

2024 – Present | Hong Kong

- Built a multi-platform content operation from zero as a solo operator using a custom AI production pipeline — a working proof that AI-driven workflows scale output without added headcount.
- Produced a **76,000-view organic Facebook Reel from a 77-follower base** (~990x follower count, ~210x channel median) plus a second Reel at 11,000 views, with zero paid support.
- Accumulated **84,000+ YouTube views across 57 videos**; ran weekly hypothesis-driven testing on hooks, thumbnails and formats against native retention analytics.
- Converted organic content into revenue — B2B consulting engagements at HK\$13,800/month.

Freelance Digital Marketing Manager — 20+ Retail / Lifestyle / F&B Clients

Nov 2018 – Dec 2021 | Hong Kong

- Managed **HK\$3M+ cumulative ad spend** across 20+ clients with repeatable campaign frameworks at consistent 3–7x ROAS across diverse verticals and sales cycles.
- Adapted channel mix, targeting structure and funnel architecture to each brand's audience and buying cycle across simultaneous engagements.

Product Marketing Executive — Mayborn Ltd (Tommee Tippee)

May 2018 – Nov 2018 | Hong Kong

- Grew social engagement **15%** via 30+ micro-influencer partnerships generating 3,000+ engagements; contributed to a **5x** increase in organic traffic.

TOOLS & TECHNOLOGY

Paid & analytics: Meta Ads Manager · Google Ads (Search / Shopping / PMax) · TikTok Ads · GA4 · Shopify · UTM & pixel governance

Lifecycle & automation: Klaviyo · marketing automation workflows · segmentation

AI (daily): Claude (custom skills, multi-step pipelines) · ChatGPT · Gemini · Perplexity · Midjourney · Ideogram · Seedance 2.0 · CapCut · Canva

Collaboration: Notion · cross-functional work with design, development, operations, merchandising
