

ANSON CHAN

Creative Strategist

+852 9298 1110 | ai@digitalanson.com | digitalanson.com | youtube.com/@aieasyjob | IG @aieasyjob | FB: AI 係咁易

PROFESSIONAL SUMMARY

Creative Strategist with 7+ years driving creative strategy and content performance across paid and organic channels for consumer and DTC brands in Hong Kong and Southeast Asia. Combines storytelling and creative direction with disciplined performance analysis — HK\$3M+ cumulative ad spend managed at 3–10x ROAS, including HK\$500K+/month at Hong Kong's #1 baby e-commerce platform during a high-growth scaling phase.

Operates @aieasyjob, a self-built multi-platform content brand (YouTube, Instagram, Facebook) that functions as a live creative testing lab: 76,000 organic views on a single Facebook Reel from a 77-follower page — roughly 990x follower count and 210x channel median — achieved with zero paid support, purely through hook construction and thumb-stop design. Two Reels have passed 10,000 views, and the YouTube channel has accumulated 84,000+ views across 57 videos.

Daily AI-powered creative workflows (Claude, ChatGPT, Gemini, Midjourney) cut scripting and production cycles by 50–60% and enable 10+ creative variants per testing cycle. Introduced generative AI into commercial creative production in 2022, roughly two years ahead of industry adoption.

Trilingual: Cantonese (native), English (fluent), Mandarin (fluent). Available for remote, Hong Kong-based.

CORE COMPETENCIES

Creative Strategy & Direction

Creative concept development · Creative briefs, scripting & storyboarding · Copywriting (ad copy, long-form video, short-form, carousel) · Hook & thumb-stop design · Creative direction across video, static and carousel · Brand voice adaptation across audiences

Performance Analysis & Creative Testing

Structured creative testing roadmaps · Single-variable testing (hook → messaging → format) · ROAS, CTR, CVR, CPA · Hook rate, thumb-stop rate, retention curve analysis · Creative playbooks & winner-scaling frameworks · GA4 dashboards, UTM & pixel governance · Monthly performance reporting to senior stakeholders

Content Production at Scale

AI-accelerated ideation, copywriting & production · Reusable prompt templates with QC checklists · Content production systems & asset workflows · Multi-platform repurposing (long-form → Shorts/Reels → carousel) · Creative asset naming conventions, tagging & version control · Weekly publishing cadence as a solo operator

Audience, UGC & Lifecycle

Customer persona development · Journey-stage content mapping (Awareness / Consideration / Conversion) · UGC frameworks & creator briefing · KOL & influencer programme design (200+ partnerships) · Klaviyo lifecycle email (30,000 subscribers) · Conversion rate optimisation & landing page messaging

Channels & Platforms

Meta Ads (prospecting + retargeting) · Google Ads (Search, Shopping, Performance Max) · TikTok · YouTube · Instagram · Facebook · Shopify DTC · Klaviyo · Notion · Canva

SIGNATURE CASE STUDIES

1. Organic Creative Outlier — 76,000-View Facebook Reel from a 77-Follower Page

Context. @aieasyjob's Facebook page had 77 followers and a channel median of roughly 360 views per Reel. No paid amplification, no existing distribution advantage.

Action. Applied a repeatable creative structure developed through weekly testing on the channel — a first-frame visual pattern-interrupt, a tension-led opening beat, and a payoff timed against observed drop-off points. Iterated hook framing and opening visuals weekly against native retention and thumb-stop data.

Result. 76,000 organic views on a single Reel — approximately **210x the channel median and 990x follower count**, with zero ad spend. A second Reel using the same structural approach reached 11,000 views, confirming the result was structural rather than incidental. This is the clearest available proof of hook and thumb-stop competence: creative that earns distribution rather than buying it.

2. Paid Creative Turnaround — ROAS 0.3x to 3x in 90 Days

Context. A fashion and lifestyle retail client was running Meta Ads at 0.3x ROAS, with budget concentrated in warm retargeting audiences and creative that had gone stale.

Action. Rebuilt the full-funnel creative strategy from scratch. Reallocated 70% of budget to cold-audience prospecting for net-new customer acquisition, and rebuilt the creative pool around journey-stage messaging rather than a single offer angle. Ran single-variable creative tests to isolate which hooks, not which audiences, were driving the failure.

Result. ROAS scaled from 0.3x to 3x within 90 days, on a majority-prospecting budget split — a harder result than a retargeting-led lift, because it proves net-new acquisition rather than harvesting existing demand.

3. Systematic AI-Assisted Creative Testing — +200% Conversion Rate

Context. Client creative testing was throughput-limited: a small number of variants per cycle meant slow learning and long periods running unvalidated creative.

Action. Built an AI-assisted variant production pipeline using Claude and ChatGPT for copy and angle generation, and Midjourney/Ideogram for visual production — raising output to 10+ creative variants per testing cycle while holding a single-variable testing discipline so results stayed attributable.

Result. +200% conversion rate across Meta Ads and Instagram, with peak campaigns reaching 10x+ ROAS. Testing cycle time cut by approximately 50%, compounding learning velocity across the account.

4. Revenue-Attributed Creative at Scale — HK\$300K Incremental GMV in 5 Months

Context. Baby Central, Hong Kong's #1 baby e-commerce platform, in a high-growth scaling phase across HK and SEA markets — a trust-sensitive category where creative credibility directly gates conversion.

Action. Owned creative direction and performance for HK\$500K+/month of Meta and Google spend (Search, Shopping, Performance Max, retargeting). Built GA4 and Meta Ads Manager dashboards to tie creative decisions to revenue rather than to engagement proxies, and scaled a 200+ KOL and influencer programme as a working UGC engine.

Result. HK\$300K incremental GMV within 5 months, consistent 3–7x ROAS on HK\$500K+/month spend, and 30% organic traffic growth through integrated SEO and paid social.

CREATIVE TESTING & PRODUCTION METHODOLOGY

Testing framework. 70/30 budget split between proven creative and active tests. Single-variable sequencing — hook first, then messaging angle, then format — so every result is attributable. Winners are documented into a creative playbook rather than re-derived each cycle.

Metric ladder. Creative decisions are read down the funnel, not at the top of it: thumb-stop rate and hook rate → CTR → CVR → CPA → ROAS. Creative that wins on engagement but fails downstream is retired, not scaled.

Production system. Reusable prompt templates with conditional logic and QC checklists, an automated carousel generation pipeline with image-matching logic and design standards, and asset naming conventions with tagging and version control so a growing library stays searchable as volume scales.

Research loop. AI-assisted competitor and trend monitoring — YouTube outlier detection, Instagram viral post analysis, platform change tracking — feeding directly into the next testing cycle rather than sitting in a report.

OWNED CHANNEL PERFORMANCE (VERIFIED, JULY 2026)

Channel	Metric	Result
Facebook (AI 係咁易)	Top Reel, organic (77-follower base)	76,000 views — ~210x median, ~990x followers
Facebook	Second Reel above 10K	11,000 views
YouTube (@aieasyjob)	Cumulative views / videos	84,000+ / 57
YouTube	Views added / videos published, trailing 30 days	6,700+ / 7
All channels	Paid amplification	None — fully organic

PROFESSIONAL EXPERIENCE

Founder & Creative Operator — @aieasyjob (YouTube · Instagram · Facebook)

2024 – Present | Hong Kong (Global Audience)

- Built a multi-platform content engine from zero as a solo operator with full end-to-end ownership — concept, script, shoot, edit, publish — across YouTube long-form and Shorts, Instagram Reels and carousels, and Facebook Reels, on a sustained weekly cadence.
- Produced a 76,000-view organic Facebook Reel from a 77-follower base (~990x follower count, ~210x channel median) and a second Reel at 11,000 views, with zero paid support — demonstrating hook and thumb-stop competence under the hardest possible distribution conditions.
- Accumulated 84,000+ YouTube views across 57 videos, publishing 7 videos in the trailing 30 days while maintaining creative quality at volume.
- Run the channel as a live creative testing lab — weekly hypothesis-driven tests on hooks, thumbnails, formats and captions, scored against native retention and thumb-stop analytics, compounding results into a documented creative playbook.
- Engineered an AI production pipeline (Claude, ChatGPT, Gemini, Midjourney) with reusable prompt templates and automated QC checklists — cutting scripting time ~60% and enabling same-day concept-to-publish turnaround.
- Built a carousel automation system with image-matching logic and enforced design standards, producing on-brand visual assets at scale without a designer.
- Converted audience trust into revenue — B2B consulting enquiries and client proposals at HK\$13,800/month packages sourced directly from organic content, proving a content-to-qualified-lead pipeline.

Freelance Digital Marketing Consultant

Mar 2024 – Present | Hong Kong & Regional Clients, Remote (APAC)

- Rebuilt full-funnel Meta Ads creative strategy for a fashion and lifestyle retailer — scaling ROAS from 0.3x to 3x within 90 days with 70% of budget allocated to cold-audience prospecting.
- Delivered +200% conversion rate through systematic AI-assisted creative A/B testing — 10+ variants per cycle under single-variable discipline, with peak campaigns at 10x+ ROAS.
- Deployed AI-generated customer personas and three-stage funnel creative (Awareness / Consideration / Conversion) for a multi-regional hair care brand — cutting testing cycles by 50%.
- Managed monthly Shopify DTC budgets of HK\$30K–200K per client at consistent 3–7x ROAS across Meta Ads and Google Shopping.
- Built Klaviyo lifecycle flows — welcome, abandoned cart, post-purchase — driving measurable repeat purchase revenue.

B2C E-Commerce & Digital Marketing Manager

Baby Central Limited (HK's #1 baby e-commerce platform) / Bloom and Grow Limited

Jan 2022 – Feb 2024 | Hong Kong & SEA

- Led creative direction and performance for HK\$500K+/month Meta and Google spend at consistent 3–7x ROAS across HK and SEA markets during a high-growth scaling phase.
- Drove HK\$300K incremental GMV within 5 months through data-driven Shopify campaign targeting — creative decisions tied directly to revenue.
- Built and scaled a 200+ KOL and influencer partnership programme across HK and SEA — a working UGC framework generating qualified leads and measurable brand lift in a trust-sensitive category.
- Pioneered generative AI (ChatGPT, Ideogram) in the creative production workflow in 2022 — cutting A/B testing cycles by 50% and materially reducing production cost, roughly two years before industry-wide adoption.
- Owned the Klaviyo content-to-conversion system for 30,000 subscribers — 2x weekly campaigns plus automated welcome, abandoned cart, post-purchase and win-back flows.
- Grew organic site traffic 30% through integrated SEO and paid social; built GA4 and Meta Ads Manager dashboards for monthly senior-stakeholder reporting.
- Collaborated cross-functionally with design, development, operations and merchandising teams to ship campaigns on commercial deadlines.

Freelance Digital Marketing Manager — 20+ Retail / Lifestyle / F&B Clients

Nov 2018 – Dec 2021 | Hong Kong

- Managed HK\$3M+ cumulative ad spend across 20+ clients with repeatable creative frameworks delivering consistent 3–7x ROAS across diverse verticals.
- Adapted creative strategy, brand voice, targeting structure and funnel architecture to each brand's audience and sales cycle — sustaining simultaneous client engagements with fast execution.

Product Marketing Executive — Mayborn Ltd (Tommee Tippee)

May 2018 – Nov 2018 | Hong Kong

- Grew social media engagement 15% through targeted micro-influencer campaigns — coordinating 30+ partnerships generating 3,000+ engagements.
- Contributed to a 5x increase in organic traffic through integrated digital marketing campaigns.

AI TOOLS & DAILY WORKFLOW

Core: Claude (daily — scripting, creative briefs, custom skills and multi-step production pipelines) · ChatGPT · Gemini · Perplexity

Visual & video: Midjourney · Ideogram · Seedance 2.0 · Nano Banana · Leonardo.ai · CapCut · Filmora · Canva

Analytics & ops: GA4 · Meta Ads Manager · Klaviyo · Notion (content hub) · Shopify

Applied daily to: script generation and structural editing · creative brief-to-visual production · systematic A/B copy variant generation · reusable production templates with conditional logic and QC checklists · AI-powered competitor and trend research · automated carousel generation · persona building and funnel messaging iteration.
